MEMORANDUM FOR: COMOR Photo Working Group

SUBJECT: Targets in Cuba Recommended for
112A Coverage

1. Attached is a revised and augmented list of Cuba targets which were recommended by the Working Group on 14 April for coverage by the 112A camera. This list supersedes an earlier list issued under CWG-D-1/5, which is incomplete.

2. The targets in priority 1 are those related to recent reports of unidentified missile activity in Cuba. Those in priority 2 relate to new and unidentified activities at certain SAM sites. Those in priority 3 are selected bonus targets which, although not directly related to the current primary mission of the 112A camera, may be classed as indications targets of general interest to the community.
